

# Michael Billstroem,

## Director of International Technical Services

Reliable is pleased to announce the appointment of **Michael Billstroem** as Director of International Technical Services. Michael comes to us with over 25 years of experience in the fire protection industry. Prior to working with Reliable, Michael has owned and operated independent contracting and consulting companies across several market areas and in several International jurisdictions.

Michael has a Master's degree in Aeronautical Engineering and is a graduate of the NFSA 'Certificate Program for Fire Sprinkler Technicians'. His design experience encompasses commercial, storage, special hazard and heritage sprinkler installations as well as foam and suppression systems.

Michael will report to **Graeme Leonard**, Vice President International Sales & Operations, and will be a valued member of Reliable's team providing excellence in product offering and service across the industry.
